

Traditional and Non-Traditional Student Recommendations

You have decided that this is the career for you...now what?

- As a **high school student** your best path into this profession will be to seek your Bachelor of Science degree in Radiologic Technology using a combination of college and a hospital-based education
- The benefits to this are:
 - You are earning a college degree and can use those initials in your professional title.
 - You can have that 2-year college experience before applying to a clinical program, like ours.
 - You have 21 months of specialized educational paired with real-world hospital clinical experience!
 - You can take advantage of Federal School Assistance.
- There are two options available to you currently....

Option #1

- Start at the UWO Fox Cities campus to take your general education credits.

-This campus provides an easier transition to college life, and has smaller class sizes. You can then transfer to UWO campus.

Option #2

- Apply directly to UW Oshkosh for the - B.S.R.S. Degree Track the fall of your senior year of high school
 - Students will spend 2 years on campus and then 2 years in a clinical hospital affiliate (like us) for your radiology and clinical education
 - Students must apply for our clinical program –see program information presentation....
 - Here is a link to the [BSRS](#) program at UW-Oshkosh. Scroll down to find the FAQ's pdf which contains valuable information.

Non-Traditional Student

- If you have an associates degree or higher, and includes medical terminology and anatomy/physiology credits, you meet requirements to apply to program.
- If you do not have the above requirements, you would need to seek a college to complete those items needed. You can call our program to help guide you through the process.

Final Words....

- College's will be looking to admit students who are ready for college level material so you will need to make sure you meet those entrance requirements
 - We look for candidates who have a strong background in science and math courses
 - UW-O has great advising and admissions departments who can help you find your way
- We are also here to help you! The next slide has our contact information and any of us should be able to answer your questions.
- If your questions deal with tuition you should seek the Program Director, Mr. Troy Albrecht right away.

If you have any questions, please feel to contact any faculty member listed below....

- Troy Albrecht MS, RT(R) (CT)(ARRT)
